Check us out. We have been updating our website. Please look at our News/Event page

Adopt A Main Street Flower Box

We are in search of contestants for the annual Adopt A Main Street Flower Box contest. Every year, individuals and groups, select a flower box along Main Street to plant and care for throughout the spring and summer seasons. We ask that the flower boxes be planted before Memorial Day. You supply the flowers and the Village supplies the mulch. Voting cards are placed in the July newsletter and votes are collected throughout the month. The winner is announced on the Friday of Community Days and is awarded \$100. If you are interested in participating please contact the Village Office.

Thank you for supporting your community!

Pancake Breakfast – THANK YOU!

The Rushville Fire Department held the annual pancake breakfast on March 18th -19th. The event was well attended and revenues will support the department's ongoing fire protection mission to Rushville and its surrounding area. Thank you to all those who supported this wonderful event that include, the dedicated members, Lyons Club, Rushco, Lowes, generous vendors, local businesses, and everyone else who pitched in who helped make the event a success.

Carbon Monoxide Can Be Deadly

You can't see or smell carbon monoxide, but at high levels it can kill a person in minutes. Carbon monoxide is produced whenever any fuel such as gas, oil, kerosene, wood, or charcoal is burned. If appliances that burn fuel are maintained and used properly, the amount of CO produced is usually not hazardous. However, if appliances are not working properly or are used incorrectly, dangerous levels of CO can result. Hundreds of people die accidentally every year from CO poisoning caused by malfunctioning or improperly used fuel-burning appliances. Even more die from CO produced by idling cars. Fetuses, infants, elderly people, and people with anemia or with a history of heart or respiratory disease can be especially susceptible. Be safe, install a CO detector on each level in your home within 15 feet of each bedroom. For more information on CO detectors or any fire safety matter please contact the Rushville Fire Department.

Rushville Hose Co.

Spring Fire Safety Tips

As spring approaches thoughts turn to cleaning up from the long winter, making repairs around the home and enjoying the outdoors. Keeping a few safety thoughts in mind will help you make your spring experience much more enjoyable.

Inside the Home:

- ◆ Check and clean your smoke and carbon monoxide detectors
- ◆ Check your fire extinguishers
- ◆ Check for overloaded or damaged extension cords
- ◆ Prepare for storm related outages (make sure your flashlights and portable radios have batteries and that other supplies, such as bottled water, are stocked and available)
- ◆ Practice exit drills with your family so everyone knows what to do in case of an emergency
- ◆ Properly store household chemicals and never mix cleaning agents

Outside and Around the Yard:

- ◆ Make sure your address numbers are up and visible from the street
- ◆ Clean up yard debris and junk. Cut back dead limbs and grasses
- ◆ Maintain a clear 'fire zone' of 10' around structures. Clean up leaves and debris and consider using stone or non-combustible mulches
- ◆ Check outdoor electrical outlets and other electrical appliances
- ◆ Get your grill cleaned and serviced. Check all propane tanks and lines for leaks and damage
- ◆ Keep 100' of garden hose with an attached nozzle connected and ready for use

In the Garage or Shed:

- ◆ Clean up and properly store paints, pool and yard chemicals
- ◆ Check fuels containers for leaks and make sure they are properly stored
- ◆ Have all power equipment cleaned, serviced and readied for use

For more information, contact the Rushville Hose Co. by calling (585) 554-3045.

Message from the Mayor:

Things are very busy in the office.

First, I would like to thank the DPW on there clean up efforts during and after the snow storm. Streets were plowed, sidewalks cleaned and excess snow removed.

The wastewater treatment plant improvement project is moving forward smoothly.

Make sure you checks dates and times of the upcoming meetings. (On front page and on our website.)

Hope to see you there.

John Sawers
